PROFILE

Dynamic MERN Stack Developer with two years of experience in crafting scalable full-stack web applications that enhance user experiences and meet complex business requirements. Proficient in MongoDB, Express.js, React.js, and Node.js, delivering high-performance solutions through meticulous design and implementation. Committed to continuous learning, recently expanding knowledge in System Design, Java, and Spring Boot to further strengthen backend capabilities. Thrives in collaborative environments, eager to tackle innovative projects that push the boundaries of technology.

EMPLOYMENT HISTORY

MERN STACK Developer, w3Origin

Delhi, India

Sep 2022 — Aug 2024

As a MERN STACK Developer at w3Origin, engagement in the development of robust web applications using the MERN stack has been paramount. This role involves designing and implementing both client-side and server-side components, ensuring seamless integration and high performance. Collaborating with a talented team, the focus remains on delivering innovative solutions that meet client needs and enhance user experience.

- Designed and developed scalable web applications using MongoDB, Express.js, React, and Node.js.
- Ensured optimal application performance through rigorous testing and debugging processes.
- Collaborated with cross-functional teams to gather requirements and implement features effectively.
- Utilized version control systems like Git to manage codebase and track changes.
- Engaged in continuous learning to stay updated with the latest technologies and best practices in software development.
